## LANDCARE AND RESTORATION SERVICES

SERCUL's Landcare and Restoration team are specialists in the field with many years onground experience. Our highly skilled workforce can plan and implement projects from small scale revegetation or weed spraying projects to large scale landscape projects including Living Streams and constructed wetlands. We strive to implement projects that improve the health of our waterways and other ecosystems for the benefit of our stakeholders and future generations.

### Benefits of using SERCUL:

- Have a fully equipped landcare work force including spray units and licensed pest management technicians
- Strong existing partnerships with community, local government and state government agencies
- Proven track record implementing landscape scale restoration projects

### Services Provided:

- **Specialist Weed Management** (License #1939) including bushland, aquatic and woody weed management
- **Bushland Management** including planning, assessment and implementation
- **Living Streams, Water Sensitive Urban Design** and installation including constructed wetlands - leaders in drainage reform in WA
- **Revegetation** design and implementation
- **Management plans**
- **Trained Labour workforce**
  - planting
  - rubbish collection and removal
  - manual weed control
  - riverbank and waterway stabilisation including jute matting and brush mattsing
  - fencing
- **GIS** mapping, analysis, database management, technical support
- **Dieback** treatment equipment hire

*Landcare and Restoration is our speciality and we provide a comprehensive range of practical NRM services*

*SERCUL is a not for profit community led organisation. Our vision is to have, as a given, the Natural Resources of the South Region of Perth managed in a healthy and sustainable manner by all stakeholders for future generations. All proceeds from Environmental Services undertaken by SERCUL are invested back into this non-profit community organisation to deliver our vision through Community Support, Education and Landcare programs.*
