

Detergents we use in my home

Get your family to help you with this. You will need to find the different detergents that are used in your home for cleaning. These include detergents for cleaning the house, washing clothes, washing the dishes and washing the car. These detergents then need to be listed in one of the three columns below. Hopefully most of the detergents you use at your home will be listed in the first column!

Detergents that are Phosphorus free

Look for these words & symbols:
 NP , phosphorus free,
phosphate free, zeolite,
alternative builders.

Detergents that contain Phosphorus

Look for these words & symbols:
 P , phosphate, phosphorus, STTP,
sodium polyphosphates.

Detergents that show no Phosphorus information
