

# MOZZIE Wise

## Mozzie Wise Price List

SERCUL have produced a Mozzie Wise education program that can be used in Local Government areas to educate ratepayers about the importance of being Mozzie Wise. The different components of the program, when implemented, will educate local communities and school children about how to reduce mosquito numbers within the community and how to protect themselves from mosquitoes.

Public education about mosquitoes leads to informed communities that act upon their knowledge and is critical for mosquito control as well as to reduce unnecessary chemical demand.

The components of the Mozzie Wise Program are listed below. Ideally the whole program would be implemented in an area or you may like to choose a couple of the components to implement.

### **Community Awareness Forum - \$500/hr**

A two hour community forum that educates the local community about mosquitoes and their control. Representatives of SERCUL and the Local Government involved would present at this Forum.

### **Staff Forum - \$250/hr**

A one to two hour forum can be held with staff of the Local Government involved to update the staff on recent mosquito research and to discuss mosquito issues in their area.

### **Teacher Professional Learning Workshop - \$1500**

A two hour workshop for up to 30 teachers where they learn about mosquitoes and their control. The 'Mozzie Wise: A Teacher's Guide to Mosquito Education' booklets will be showcased and teachers will learn how to implement this curriculum linked resource into their classroom (includes one Teacher Guide per participant).

### **School Incursion - \$150/class**

The 'Being Mozzie Wise' incursion can be delivered to schools in a particular area. The incursion can be tailored for Kindy - Year 12 students and involves interactive activities where students learn about mosquitoes, their lifecycle, their role in the food chain, where they breed, how to stop them breeding at home and school and how to protect themselves from mosquitoes (includes one Teacher Guide per class).

### **Brochure**

This DL brochure can be distributed to ratepayers and covers mosquito facts, mosquito-borne diseases and protection and how to prevent mosquitoes breeding.

Quantity	Price
1000	\$781
