week 2019**

An Australian Government Initiative

Inspiring
AUSTRALIA

Hosted by City of Canning
EarthWhile Australia presents
Soil Foodwebs
and Microbes

Heard about microbes? Have you seen yours? An interactive session that introduces the soil food web, its organisms and their role in plant health, and subsequently good food nutrition. Participants will be invited to engage in a number of activities demonstrating the topics. Organisms (bacteria, fungi, protozoa and nematodes) will be viewed via a microscope.

Tuesday 13th August 2019

6pm - 8pm

Canning River Eco Education Centre

Free Event - Registrations Essential - Eventbrite
